

FS/1R FRESH WATER TANK

mastersolar

DIAGRAM 1

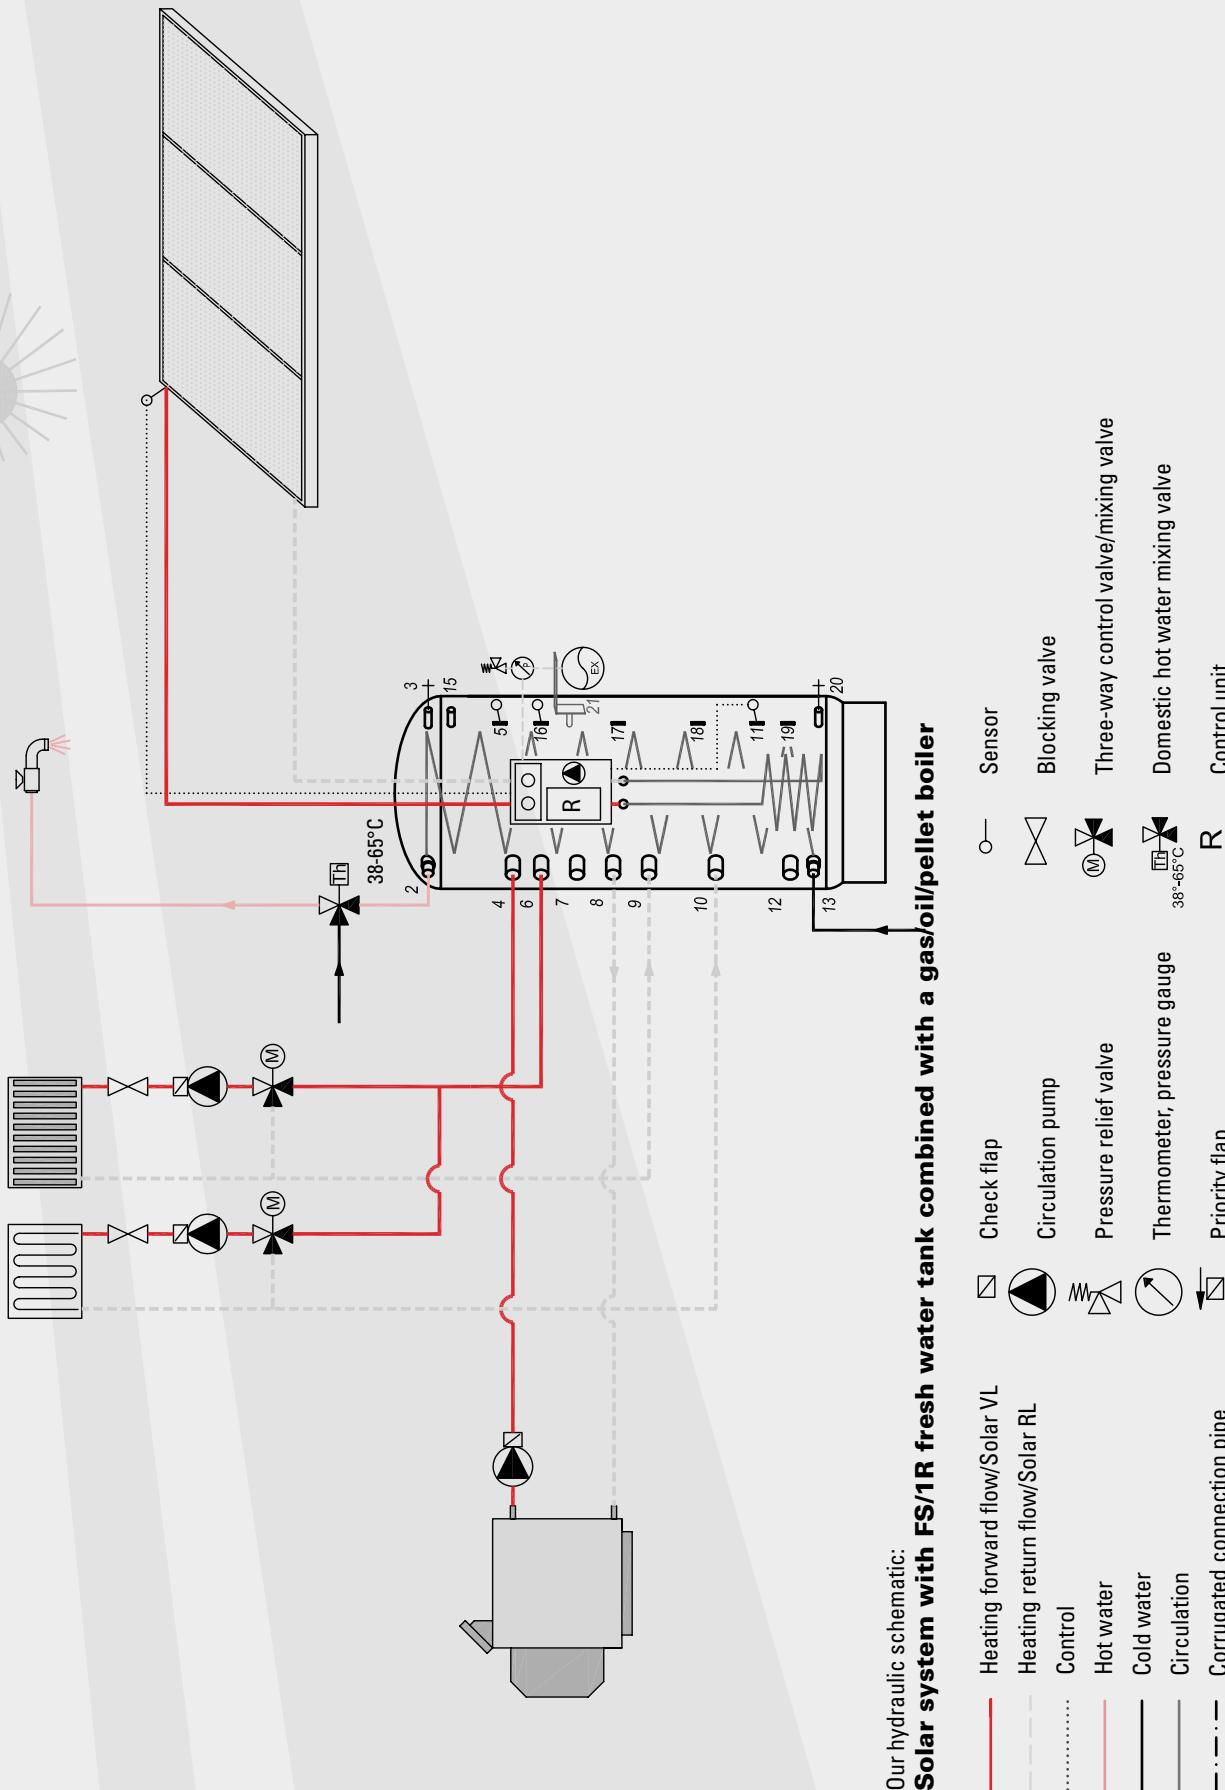

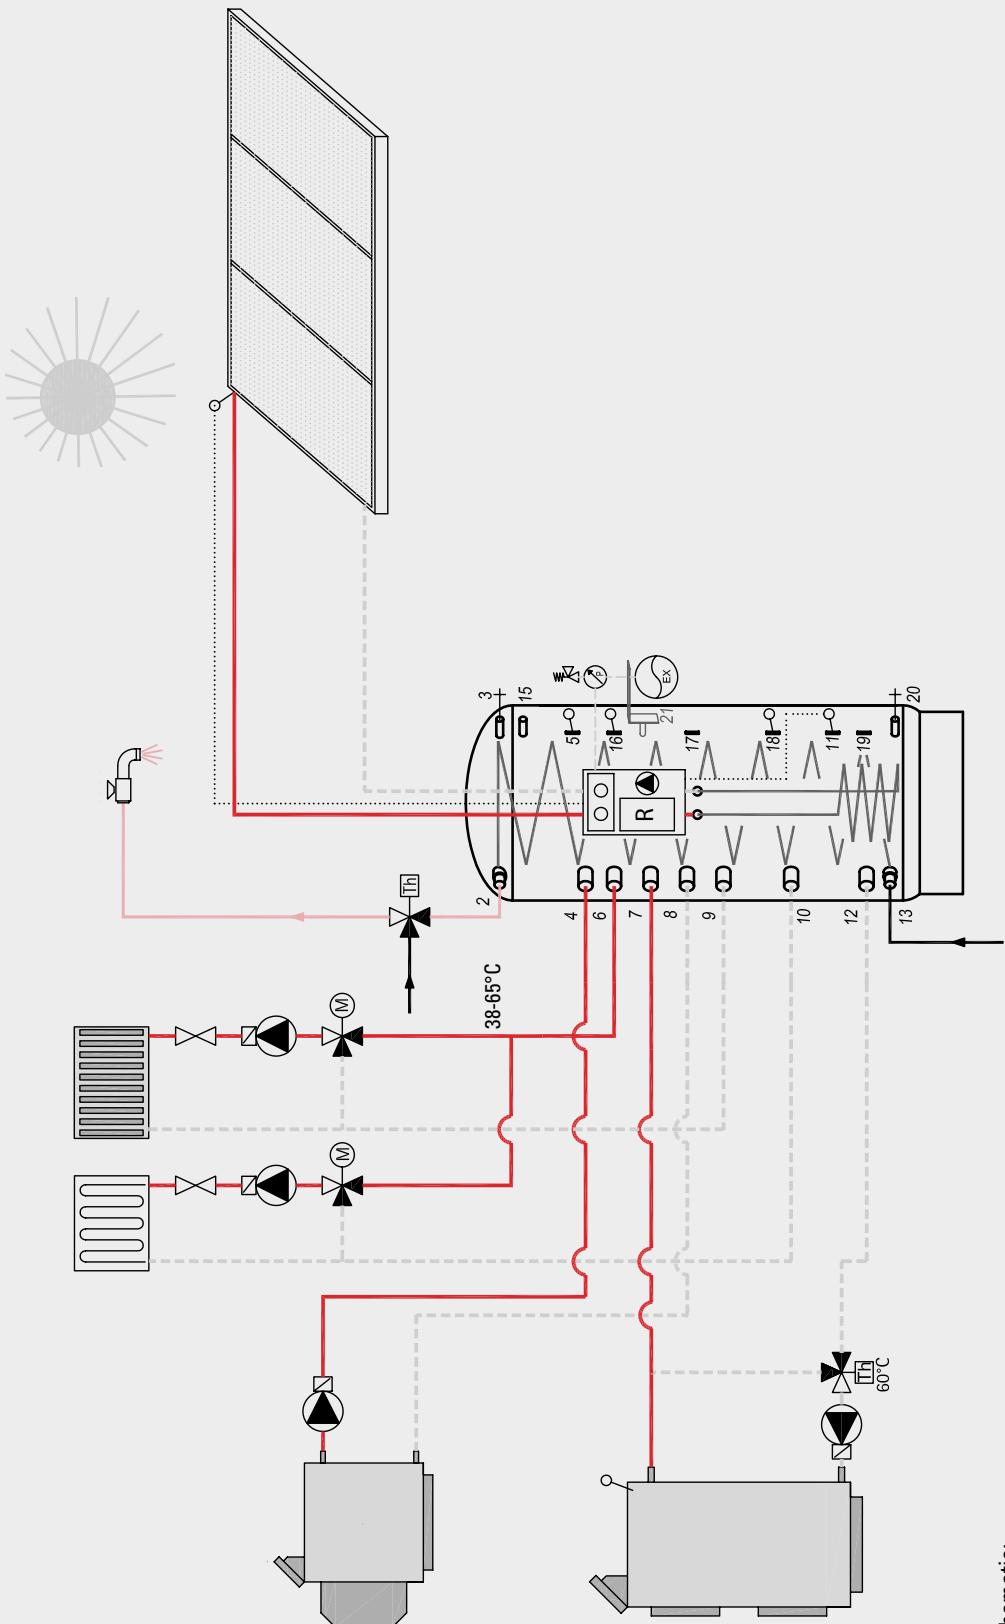

DIAGRAM 2

Our hydraulic schematic:
Solar system with FS/1R fresh water tank combined with a gas/oil/pellet boiler and a solid fuel boiler

— Heating forward flow/Solar VL	□ Check flap
- - - Heating return flow/Solar RL	○ Sensor
..... Control	— Blocking valve
— Hot water	□ Three-way control valve/mixing valve
— Cold water	○ Thermometer, pressure gauge
— Circulation	38°-65°C
— Corrugated connection pipe	60°C
R	□ Domestic hot water mixing valve
	□ Priority flap

Note: This hydraulic schematic is an example and by no means replaces a specific, professional system planning!
